DETAILED ACTION

Allowable Subject Matter

1. Claims 15-18 and 20-22 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding to claim 15, prior art of record taken alone or in combination fails to teach or suggest the first carbon film and a second carbon film are disposed opposition to each other across a gap and wherein the surface of the substrate is concaved at a section within the gap in order to obtain a configuration of a surface conduction electron-emitting device capable of implementing good electron emission characteristics and high-luminance display over a long time and an electron source using the device, and an image-forming apparatus using it.

Regarding to claim 16, prior art of record taken alone or in combination fails to teach or suggest the first carbon film and a second carbon film are disposed opposition to each other across a gap and wherein the surface of the substrate is concaved at a section within the gap in order to obtain a configuration of a surface conduction electron-emitting device capable of implementing good electron emission characteristics and high-luminance display over a long time and an electron source using the device, and an image-forming apparatus using it.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The following prior art are cited to further show the state of the art of composition of an electron-emitting device.

U.S. Patent No. 6,586,872 to Shibata.

U.S. Patent No. 6,595,820 to Hsu.

U.S. Patent No. 6,642,649 to Yamamoto.

U.S. Patent No. 6,680,562 to McGinn.
